

# NILESH CHIDAMBARAM

Aspiring Software Developer · IT Graduate · Mumbai, India

nileshchidambaram9869@gmail.com | +91 8452049424 | [GitHub](#) | [LinkedIn](#)

## PROFILE

Recent IT graduate with internship and project experience in full-stack development and AI/ML. Built a real-time collaborative editor with AI writing assistance (React, Next.js, Gemini AI) and co-developed an ML-based intrusion detection system in Python. Comfortable across the stack; eager to contribute and grow.

## EXPERIENCE

### AI Variant

Nov 2025

AI/ML Intern · Mumbai, India

- Participated in a project-based internship culminating in co-development of a Real-Time Intrusion Detection System.
- Worked in a two-person agile team on data preparation, model experimentation, testing, and documentation.
- Gained practical exposure to anomaly-detection, ML workflows, and AI-assisted development tools.

## PROJECTS

### Note-Sync — Real-Time Collaborative Editor [GitHub](#)

React · Next.js · Tailwind CSS · TipTap · Liveblocks · Convex · Clerk · Gemini AI · Tesseract.js

- Built a full-stack collaborative rich-text editor where multiple users can edit documents simultaneously, with live cursors and threaded comments via Liveblocks WebSockets.
- Integrated Google Gemini AI as a writing assistant — users can select text and trigger actions like summarize, rewrite, or expand directly in the editor.
- Added an AI chat sidebar with document-aware context, and Tesseract.js OCR running in-browser so users can extract text from uploaded images without a server.
- Handled authentication and organization-level access management using Clerk, with Convex as the reactive serverless database.

### Real-Time Intrusion Detection System *Team Project*

Python · scikit-learn · Git

- Co-developed an ML-based network security tool for real-time classification of malicious traffic patterns.
- Contributed to data processing, model testing, anomaly detection workflows, and project documentation.

## EDUCATION

### Guru Nanak Khalsa College of Science, Arts & Commerce

2023 – 2026

B.Sc. Information Technology · Mumbai, India

CGPA: 6.82/10 (Final Year: 7.98/10)

## TECHNICAL SKILLS

|            |                                                                                        |
|------------|----------------------------------------------------------------------------------------|
| Languages  | Python, JavaScript                                                                     |
| Web        | React.js, Next.js, Tailwind CSS, TipTap, HTML, CSS, Responsive Design                  |
| AI/ML      | ML Workflows, Data Preprocessing, Anomaly Detection, Gemini AI                         |
| Backend/DB | Convex, MySQL, API Integration                                                         |
| Tools      | Git, GitHub, Liveblocks, Clerk, VS Code, Linux (Ubuntu), Tesseract.js, Tableau (Basic) |

## CERTIFICATIONS

- IBM SkillsBuild Winter Certification 2025 — Data Analytics & Business Intelligence Lab
- Developer and Technology Job Simulation — Forage
- Artificial Intelligence & Machine Learning — ExcelR Edtech Pvt. Ltd. (2025)
